

ezMirror - IBM Power is a SAN based replication solution combined with our ezRecovery standby systems to provide easy to manage and cost-effective Business Continuity and Disaster Recovery (DR) option.

Features

- RPO of 5-10 minutes and RTO of 30 minutes achievable under optimal conditions
- Support for IBM SVC/Storwize SAN with Global Mirror
- Full system replication mirrors all Volumes/LUNs of the system including the load source to the target SAN
- When replication is active the target host is offline in standby
- No additional maintenance, patching or updates required on the target system
- Replication process is separate from the Operating System
- Any ASP configuration is supported including IASPs

Premier Cloud Provider for IBM i and AIX
